

Dear Parents of CFCA Students,

My name is Jackie Noble and my company will be providing school lunches this year for those parents wishing to purchase lunches for their children at school. Our program offers a web based ordering system where parents will be able to access our website to effectively and efficiently manage their child's lunches. Lunches can be ordered for any day of the school year, as far in advance as they wish. Parents, you just need to register your child and order their lunches. We do the rest!

When orders are placed online, our program generates a list back to us so that we know the name and date for each meal that was purchased. Because everything is done online the program eliminates the need for tickets and lunch counts. Your child simply gives their name to our staff member before going through the lunch line.

Please take a few minutes to get acquainted with the web site. We encourage everyone to register even if you are not planning to purchase lunches right away. Below you will find some simple instructions to get you started.

My staff and I look forward to serving your families. Please call or email with any questions that you might have.
